Extensively Tested

Meets High Industry Standards

- Certified to work with fire doors – FD30 and FD60
- EN179 compliant
- Impact resistance rated – IK10
- Suitable for external facing doors – IP55
- Guaranteed quality and built to last – 5-year guarantee

Time and Energy Efficient

Easy to Maintain

- Goes into sleep mode when not in use in order to preserve battery life
- Online monitoring of events and battery status – alerts via email and SMS

Universal Design

Suitable for a Range of Sites

- Standalone operation for use on sites not requiring the additional functionality of an online system
- Alternatively, use seamlessly with a Net2 networked system for additional reporting features and centralised management
- Flexible upgrade path from standalone to networked, allowing your system to grow to suit your needs

Stylish Look and Feel

Modern, Contemporary Design

- Smart and compact
- Aesthetic design to suit modern interiors
- Anti-scratch fascia to maintain a quality look and feel

Net2 PaxLock

A Complete Wireless Security Solution

Net2 PaxLock

Access control is about controlling access to your premises, or a specific area of your premises, to protect your people and your property. Net2 PaxLock works seamlessly with Paxton's leading Net2 software, giving you simple, electronic access control.

Net2 PaxLock is a versatile product, designed as a simple replacement to your current door handle, and the perfect addition to your Net2 system. Net2 PaxLock combines wireless electronic security with a stylish slimline door handle. A simple way to secure and control access in and around a building, Net2 PaxLock can be installed quickly, with minimum disruption, as it doesn't require mains power.

Enjoy the Convenience of Wireless Access Control

- Ideal for sites where cabling has proven tricky in the past. Minimise the disruption often associated with hardwiring to each door

Discover the Benefits of a System that Moves Beyond Simple Access Control

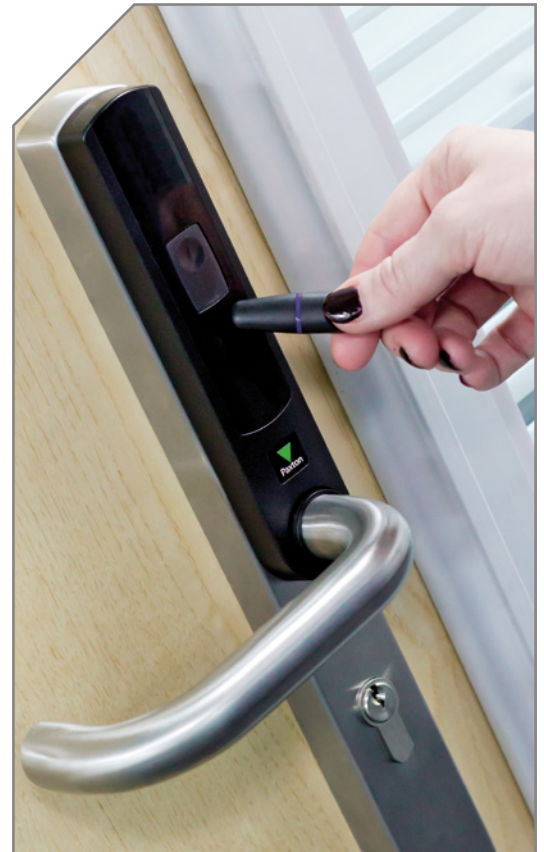

- Net2 PaxLock combines market leading Net2 access control features with enormously simple to manage software

Ideal Solution for Budget Conscious Sites

- Net2 PaxLock provides an economical and compact solution, saving you money on wiring and hardware

Attractive Slimline Unit to Complement Your Environment

- Perfect for design-led interiors where aesthetics matter. Smart satin chrome finish complements a range of sites

Net2 PaxLock - A Complete Wireless Security Solution Whatever Your Requirements

Your site could benefit from the wireless capabilities that Net2 PaxLock offers, especially in areas where cabling is tricky. For a fast and economical solution, Net2 PaxLock brings the peace of mind that comes from a reliable security system, with all the advanced benefits of trusted Net2 software.

A simple low cost addition to a system, Net2 PaxLock can be fitted as budget becomes available. Add Net2 PaxLock as and when you need, and expand your access control system as your building's security needs develop. An attractive and versatile option, Net2 PaxLock is ideal for low security internal doors, open plan layouts and historic buildings.
